SCHOOL HOUSE TEAM

AIMS OF SCHOOL HOUSE

We aim to create a caring and supportive environment for the development of all our boarders. We endeavour to create a family feel where we recognize achievement and encourage kindness. We liaise closely with parents to develop independence, maturity and responsibility for each of our boarders.

We do this by;

- ensuring that the health, safety and wellbeing of our children are of paramount importance to all the adults who work in the boarding house and the school. This is, of course, regardless of age, gender, race, culture or disability
- Providing a stimulating, secure and supportive environment in which each child can flourish, develop and fulfill his/her potential, socially as young people and in their school lives
- Staffing the house with resident and visiting adults who genuinely care about the children, who celebrate their successes with them and support them when they feel down
- Building a culture in which bullying is recognised to be unacceptable and dealt with swiftly and decisively when it occurs
- Promoting an open and trusting ethos, ensuring each child's right to privacy, dignity, independence and individuality
- Encouraging high standards of politeness and an awareness of others

Contact with parents will be made and if phones are confiscated boarders may use the boarding phone to communicate with parents. A record of sanctions is kept within the house. Persistent ill-discipline may necessitate a suspension or exclusion from boarding, as will be discussed by Mrs Stone, the Director of Boarding and the Head of Junior School.
